Paramedical Sciences are the backbone of Healthcare sector as paramedics are the first step to correct diagnosis.

India needs a phenomenal number of paramedics to cater to our large population and I am certain DPMI will bridge a lot of this gap.

MESSAGE

I am happy to learn that Bir Tikendrajit University, Manipur, established in 2020, is fulfilling the aspiration of the people of North Eastern region of India by making available more and more education opportunities for them.

The welfare, progress and prosperity of a country depends on the quality of its citizens, and this in turn is the outcome of the education they receive. The North East Region is a special part of the country where education, in every sense, is one of the fundamental factors of development. No country can achieve sustainable economic development without substantial investment in human capital.

Quality education is the gateway to opportunity and it raises people's productivity and creativity. It can empower the people to meet the challenges of a knowledge based society in the 21st Century. It prepares them to contribute constructively not only towards nation building, but also in the larger process of global development.

Universities have a major responsibility in nation building through the training of young people in various disciplines and by providing value-based education to make them responsible citizens. Educational institutions to be relevant, must take into account the national scenario and global developments to structure a curriculum that caters to the opportunities and challenges that are likely to be faced by students.

The calibre of a University depends on the work of its Lecturers and Professors. The faculty members are its lifeblood. Therefore, a young University, like any new institution, has the challenge of establishing itself well.

I am confident that Bir Tikendrajit University will build its reputation as an academic institution for excellence, that encourages high quality intellectual pursuits and broad based participation, and as an institution that produces leaders, thinkers, professionals and of course, good citizens.

I extend my greetings and felicitations to the Management and all those associated with Bir Tikendrajit University and wish them all success.
